St. Stephens Office Management & Technology, Inc (OMT) was organized in 1998 as a faith based initiative of the St. Stephens African Methodist Episcopal Church (SSAME) and is an entity exclusively dedicated to charitable educational, and improvement of the human condition. During the upcoming year, OMT plans to broaden health disparities discussion and increase membership of the Local Health Disparities Coalition to assist with bridging the health disparity chasm between the general health of minorities and that of the larger population.
